

Bell Floor 2.0

EN Bell Floor 2.0 is a tall freestanding lamp equipped with a highly bright COB LED. This lamp is inspired by the horizontal separation between a room's illuminated and non-illuminated areas. The Bell Floor 2.0 lamp naturally uses the vertical light distribution to illuminate the ceiling and the upper wall surf. The lens mixes tunable white colors and floods the entire ceiling of the room in which it is placed. The body is made from an ecoPET panel with exceptional sound absorption properties, and the cylindrical lamp base, in particular, yields a high visual concision. Due to its reduced language of form, the floor lamp is reminiscent of a simple sculpture, crowned by a luminous aura. The consistent focus on clear lines and reduced lighting effects lend the Bell Floor 2.0 lamp a sculptural presence in the room.

DE Bell Floor 2.0 ist eine hohe, freistehende Leuchte, die mit einer sehr hellen COB-LED ausgestattet ist. Diese Leuchte ist inspiriert von der horizontalen Trennung zwischen beleuchteten und unbeleuchteten Bereichen eines Raums. Auf natürliche Weise nutzt die Stehleuchte Bell Floor 2.0 die vertikale Lichtverteilung zur Beleuchtung der Decke und der oberen Wandbrandung. Die Linse mischt abstimmbare weiße Farben und flutet die gesamte Decke des Raums in den sie steht. Der Körper besteht aus ecoPET mit hervorragenden Schallabsorptionseigenschaften, und insbesondere der zylindrische Lampenfuß ergibt eine hohe optische Prägnanz. Durch ihre reduzierte Formensprache erinnert die Stehleuchte an eine schlichte Skulptur, gekrönt von einer leuchtenden Aura. Die konsequente Ausrichtung auf klare Linien und reduzierte Lichteffekte verleihen der Stehleuchte Bell Floor 2.0 eine skulpturale Präsenz im Raum.

ARCHI felt ecoPET 12 mm

EN The high-quality PET sound panels are robust and durable, with a slightly textured surface that can be washed. They have excellent sound-absorbing properties, are flame-resistant and recyclable.

DE HochwertigePET-Akustikplatten sind massiv, strapazierfähig, mit einer leichttextilen Oberfläche, die gewaschen werden kann. Sie haben hervorragende Schalldämmeigenschaften, sind schwer entflammbar und können recycelt werden.

Take a closer look at sustainably manufactured ARCHIfelt ecoPET:

is fire resistant to prevent the spread of fire

is made from recycled plastic bottles and is fully recyclable again

has a favorable sustainability profile (compared to glass and aluminum)

does not contain VOCs or formaldehyde binders

does not degrade, crumble or rot

is durable and easy to clean

provides excellent sound absorption properties

Guidelines for cleaning and maintenance of materials used in flexxica luminaires.

To maintain the beautiful color and appearance of flexxica lighting fittings, we recommend gentle vacuuming with a soft tip, preferably weekly.

EcoPET material

The ecoPET is made of 60% recycled PET bottles. It is straightforward to maintain, and stains can be removed easily and hassle-free.

Cleaning: Never rub hard to remove a stain. Always use a clean white cotton cloth with a bit of detergent.
